Klein Tools was founded in 1857 by an industrious German immigrant, Mathias Klein, who began in the hand tool business when a broken side-cutting pliers was brought to his forge shop by a telegraph lineman. Mathias repaired the pliers by forging and finishing a new half for the tool and riveting it to the old half. Soon the lineman returned because the other original half of the pliers had broken and needed replacement. Mathias forged and finished the second half of the pliers and riveted it to the other replacement half – creating the first complete Klein pliers.

To this day, Klein Tools is proudly owned and managed by the Klein family. **Over 160 years** of hard work and dedication has earned Klein the reputation of supplying only the finest quality products for users of professional hand tools, Test and Measurement and occupational protective equipment.

REVERSIBLE JAW 2-IN-1 ADJUSTABLE WRENCH/PIPE WRENCH, 10"

Converts from adjustable wrench to pipe wrench by simply reversing the removable jaw.

- Extra wide 1-1/2" (38mm) jaw opening in both configurations
- Easily change from an adjustable wrench to a pipe wrench
- Pipe wrench side of jaw grips pipes and round fasteners with self-gripping angled teeth
- Standard and metric markings for fast and precise adjustment

Cat. No.	UPC	Description
D86930	69074-7	Reversible Jaw/Adjustable Pipe Wrench, 10"

Reversible jaw has teeth and an obtuse angle to work as a pipe wrench

SLIM JAW ADJUSTABLE WRENCHES — 4", 6" & 8"

Designed for tight wrench-over-wrench applications with 40% Slimmer Jaws

Ideal for tight space wrench-over-wrench applications such as gas lines, pumps, and motors. Unique design minimizes protruding jaw shank for greater capacity and range of motion in confined areas. Standard and metric permanent markings for fast and precise adjustment. Manufactured for strength and durability.

- Slim Jaw is 40% thinner and meets ASME 107.00-2010 testing for adjustable wrenches
- Great for hard to reach applications – motors, pumps, gas lines, expansion valves
- Extra-wide jaw with standard and metric markings

Cat. No.	UPC	Description
D86932	69075-4	Slim Jaw Adjustable Wrench, 4"
D86934	69076-1	Slim-Jaw Adjustable Wrench, 6"
D86936	69084-6	Slim-Jaw Adjustable Wrench, 8"

ADJUSTABLE WRENCH EXTRA CAPACITY

- Extra capacity allows use of a smaller size wrench to handle bigger jobs, especially in confined spaces
- Forged heat-treated alloy steel for maximum strength and light weight
- Precision-machined jaws are individually chosen and assembled by hand for smooth operation
- Heat-treated for long life
- Rail is ground for precision fit; knurl turns smoothly for easy operation
- Contoured handles for comfortable use
- High-polish chrome finish; chrome-plated for rust resistance
